

prz::get_audio_clip_name

prz::get_text_clip_name

prz::Clip::get_name

```
graph LR; A[prz::get_audio_clip_name] --> C[prz::Clip::get_name]; B[prz::get_text_clip_name] --> C;
```

The diagram illustrates a mapping or delegation of two functions to a single target. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'prz::get_audio_clip_name' and the bottom box contains 'prz::get_text_clip_name'. On the right, there is a gray rectangular box with a black border containing the text 'prz::Clip::get_name'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both functions on the left are mapped to or delegate to the function in the gray box.
